## AND HE TOLD ALL HE KNEW

A Negro Man Employed By The Hon. Leslie Combs Gives Away The Plans of The Local Republican Bosses.

### HE LOST HIS HORSE

Robert L. Elmore, a colored youth who said that his age was 22 and that his home was on the farm of Leslie Combs, Chairman of the Republican State Campaign Committee, about nine miles from Lexington in the Walnut Hills neighborhood, entered the police station about half past eight o'clock last night and reported that a horse and buggy which he had driven to the city and left standing in front of a house on Thomas street had been stolen.

There were present at the time, besides a reporter for The Morning Democrat, Captain Jerry Reagan, Lieutenant Marshall, Detective Jenkins, Patrol Driver Shannon and City Hall Janitor Graves. After he had described the lost horse and vehicle, Elmore was quizzed as to politics in the Walnut Hills neighborhood. He evidently thought he was talking to a quintette of Republicans, as will be seen by the following narrative, consisting of answers to questions put to him by The Morning Democrat reporter:

"De Democrats claims they is goin' to carry de Walnut Hills precinct, but I has mah doubts 'bout dat. Mistah Combs, he got mighty nigh nuff men on his place to carry de precinct his ownsef 'thout goin' any furdur. I doan know jess how many niggers they is out dar, but they is a 'hole lot ob 'em. No, indeedy, I couldn't name 'em all. Ob cose I couldn't ef I doan know how many they is. Some ob 'em is de ones what worked dar all de summer, an' de yuders is dem what jess come since de las' rain. No, indeedy, I doan know whar they come from. Some ob dem looks lak Ferginny niggers to me.

"Mistah Curt Lavin, he is tryin' to be might eute. He is goin' roun' wif a book tryin' to git de names ob all dem niggers. But de niggers is purty peert dey own sefs. Ebery las' one ob 'em tells him dat dey has been workin' dar all de year an' ob cose dey aint no way fer him to tell de diffinee. I spee de ouliest nigger what am gwine to vote de Democrat tickit in Walnut Hills precinct am Buck Thomas. He's de nigger what didn't testify to suit Mistah Combs in de cases agin Mistah Lavin an' ole Mistah Dodd down in de cote at Louisville. When he come home he didn't hab no mo' job den a rabbit. Mistah Combs he sho' fired dat nigger. He's workin' ober at de poo' house now fer Mistah Ferrell. He doan nebber come roun' de farm no mo' but I seed him ober at de Democrat speakin' Friday night.

"Goodness me, yo'd oughter heard what dat little skinny Mistah Bronston said 'bout de Republicans. Lawdy, but he jess said scan'lus things 'bout Mistah Mark Hanna an' Mistah Yerky

an' de tros'. Mighty diffie'nt sort ob talk 'om dat what Mistah Berry an' Mistah Elkins an' Mistah Young Dick Stoll an' Mistah Jordan Jackson, de coud gen'man, sayed when dey was out too de meetin' at de school house in Cadentown las' Monday night.

"I didn't git dar in time too heah all de speakin'. When I got dar Mistah Berry had done spoke an' Mistah Elkins he war jess finishin' up. Dar war sich a crowd in de doo' dat I couldn't heah all dat Mistah Elkins war sayin'. Could jess ketch free or fo' words now an' den, but Mistah Martin de coud school teacher he said dat Mistah Berry an' Mistah Elkins had said dat dey war gwine to hab some ob dem Newwinted States Marshals at de polls an' dat dey wanted all de cullud pussins too bring dey guns along on 'lection day an' persist on gittin' too vote, an' dat ef de dam Democrats tried too interpose wid us an' keep us settin' on de fence all day lak dey did las' year fer too jess go in an' run dem away 'om de polls.

"Mistah Stoll he war't much ob a speaker. He didn't seem to hab de gi-up-an'-giness 'bout him dat Mistah Elkins had. I got up kinder close in de crowd when he gan to speak, thinkin' 'om de fac' dat his daddy is de man what we has distructions to vote fer fer Congus he war a purty peert sort ob a feller. He tole a few jokes, one ob dem 'bout now what de Democrats is chasin' in de pasture, and when dey ketches hit dey gwine too find dat hit's a steer, an' den he had a 'hole lot of picketers ob de log cabin wid a ring under dem an' a cross in de ring. Dese shows de way we is to vote. Him an' Mistah Jackson handed dem out.

"An' den Mistah Jackson he gits up an' makes a few remarks, tellin' 'bout de good times what had come wid Mistah 'Kinley, an' how dey sho' gwine disappoe' ef Mistah Brying an' Mistah Beckham is lected, an' 'hole lot mo' what I dismember. Ob cose I war't much interest in what Mistah Jackson war sayin'.

"After Mistah Jackson done finished, Mistah Stoll he treated all de boys too some liker what dey said hes daddy made. Hit war moughty good liker an' dar war plenty ob hit, free or fo' jugs jess as full as they could hole. But time dem niggers got done dem jugs war sho' empty. Some ob de han's on de fa'm sayed too dey dat dar war gwine too be a meetin' at Jonestown tomorrow night. Gess I'll be dar. Lawdy me, I doan know whedder I will or not, ef I doan fin' dat boss an' buggy."

### POLITICS IS -----

Last night politics were on tap in Irishtown. George O'Leary, who supports "Mac" and Hanna, got into an argument with Robert Dugan, who is "true blue."

O'Leary became excited and threw a brick at Dugan, who retaliated by cutting O'Leary in the neck.

Dugan was arrested by Officers Duff and Stewart. O'Leary's wound is not serious.

## OOM PAUL

To Appeal to the Powers to Help Him Save His Land.

(Union Associated Press.)

BRUSSELS, Oct. 28.—The Transvaal agency announces Kruger will arrive at Marseilles on the Dutch cruiser Gelderland November 11 or 12.

He will have apartments in the Grand Hotel De Noailles, where he will receive several French, Dutch and Belgian delegations.

Kruger will proceed to The Hague without stopping at Paris, and after expressing thanks to Queen Wilhelmina for Dutch hospitality on board Gelderland, will appeal to powers to intervene in the South African settlement on the basis of article 3 of the Hague convention.

## STANDS BY IT

Churchill Will Not Retract His Statements About the Earl.

(Union Associated Press.)

LONDON, Oct. 29.—The solicitors of Winston Spencer Churchill have written to the solicitors of the Earl of Rosslyn declining in the name of Churchill to withdraw of apologize for Churchill's statement in the recent banquet of the Pall Mall Club that Rosslyn, in dispatches and letters from South Africa, was a traitor to the British Empire. The English newspapers labeled Churchill's statements as "a lie" and "a gross insult" and made assertions that they were nothing short of falsehoods.

This morning Churchill writes to Mail repudiating the suggestion that he is moved by personal feeling against Rosslyn, but pointing out the Earl as responsible for the libelous statement concerning four famous cavalry regiments.

A Pretoria dispatch says the Boers have fifteen thousand men in the field.

## THE LAKE IS GONE

And People Doubtless Think "Spirits" at Work.

LA CROSSE, Wis., Oct. 28.—Seven and a quarter inches of rain fell here in 24 hours. No trains have arrived in that time owing to severe washouts. One farmers' family spent last night in a tree.

A dam which held Lake Como burst and the lake has disappeared. In Winona the lightning did great damage and the river division of the St. Paul road is abandoned.

## FRANCE DOES NOT LIKE IT

(Union Associated Press.)

WASHINGTON, Oct. 28.—Negotiations concerning a reciprocity agreement with France have now advanced to a point where French authorities have deemed it necessary to protest against what they regard as the arbitrary course of the Treasury Department.

### MILADO TO VISIT EUROPE.

St. Petersburg, Oct. 28.—Diplomatic circles here are in a flutter over the intelligence that the Emperor of Japan is to visit St. Petersburg in April next. From this city he will go to Vienna in May, after which he will visit all the principal capitals of Europe.

### WHAT CAN THEY DO?

VIENNA, Oct. 28.—The semi-official Politische Correspondence says France and Russia, after a discussion decided to accept the Anglo-American agreement.

## DAVID FAGIN

An American Who Is Leading the Filipinos.

(Union Associated Press.)

MANILA, Oct. 28.—While scouting near Looe, a detachment of the Twentieth and Twenty-eighth regiments under Capt. Beigler were attacked by 400 insurgents armed with rifles under command of a white man, whose nationality is not known to the Americans. Insurgents for the most part were intrenched. After a heroic fight Capt. Beigler drove off the enemy killing more than seventy-five. The fight lasted two hours.

Beigler had three privates slightly wounded and two Americans were killed. A civilian launch towing a barge loaded with merchandise near Arayat was attacked by a force of 150 insurgents under David Fagin, a deserter from the Twenty-fourth Infantry. The American troops hearing firing turned out in force before the boat could be looted and recaptured. Fagin, who holds the rank of General among the insurgents, has sworn special enmity toward his former company. Of twenty men he captured a month ago seven have returned. One was killed in a fight, his body being mutilated. Fagin sends messages to former comrades threatening them with violence if they become his prisoners. It was Fagin's men who captured Lieutenant Frederick W. Alstaetter, who is still a prisoner.

Gen. Hall's expedition with a force of nearly 300 men went through the mountains to Mindanau, in the province of Zamboanga, in the Philippines, in pursuit of the 92nd United States Infantry. Although it discovered a trace of the enemy it encountered great hardships on the march. Twenty Chinese porters died and forty men were sent into the hospital.

## MISSING

Is One of the Passengers, a Dependent School Teacher.

(Union Associated Press.)

SAVANNAH, Oct. 28.—The steamer, Nachochee arrived from New York this morning with one missing passenger. On the list was Miss Martiu, who was said to be a New Jersey school teacher. She was vivacious and made many friends. To one passenger she confided that she had lost her position, was despondent and contemplated suicide. She evidently jumped overboard in the night. Among her effects was an umbrella marked J. R. Maltby, Cazenovia, N. Y., and a ticket in her purse purchased at that place.

### THAT ALLIANCE.

(Union Associated Press.)

BERLIN, Oct. 28.—The Berliner Post publishes today an inspired article devoted to showing the Anglo-German agreement will in no way interfere with Russian interests in Manchuria.

"If England had not arrived at an agreement with Germany," says the Post, "she would have been compelled to do so with Russia. This would have been a serious blow to German trade. Germany in her capacity of an honest broker has served Russian interests."

### A HOT OLD TIME.

(Union Associated Press.)

TOLEDO, Oct. 28.—James H. Southard, Republican Congressman from this district and candidate for re-election, was assaulted by toughs at a meeting he was addressing last night and roughly handled. There were twenty desperate fights at one time and the police were called.

### PREDICTS TROUBLES.

(Union Associated Press.)

SOFIA, Oct. 28.—At the opening of Sobranje today Prince Ferdinand predicted the difficulty between Bulgaria and Roumania, growing out of the latter's demands for a suppression of the Macedonian Revolutionary Committee. It will soon be settled.

## WANTED--- A CITY HALL.

The Case Is Plainly Put and The Needs of The City Stand Out Prominently---As to the Opposition to the Plan.

### PRIDE OF THE CITY.

There is no analogy between an individual incurring additional debts when already in debt, and a government in the same condition, as our afternoon contemporary sophistically labors so hard to show.

An individual may not wish to increase his obligations, but a government can not afford to, nor does it give a contingency of that sort consideration when the necessities arise to increase its indebtedness.

The Congress, nor the President of the United States hesitate a moment, though the country be billions in debt, to vote money for an army or an increase in the navy, when occasion demands it. Nor would they stop a moment to figure how large the debt is, and if they can afford to build custom-houses or postoffices wherever the public service demands it.

And the public service demands, and the necessity never was so great, than now, that the city should have a proper city building.

This talk of the Leader that the city should wait, like an individual, until it gets out of debt is the merest puerile nonsense. When would the city get a building if it waited for that wished for day? It might as well be held that the United States ought not to build any light houses, where needed, until out of debt, or not vote any money for ammunition when required, until the old debt was reduced a little.

This may be an extreme comparison, but it is not at all inappropriate if the situation is honestly and fairly confronted.

The Editor of the Leader himself has always heretofore advocated the need of a public building and only recently and suddenly has he changed front, and, as he admits, upon political grounds.

There is not a city in the United States of the size and pretensions of Lexington, with so poor and excuse, which is called a city building; nor a city in which the taxes are lower.

The present building is a disgrace to any city, and is located in the very worst part of the city for the purpose. There are a number of low dives on either side of it and it is built right over the town branch, so that in summer the building is filled with the foulest stench, and in winter with smoke.

Every morning upon entering one is met with odors that are simply suffocating. Talk of asphaltizing the square around the Court house because of the noise of passing vehicles—and there is hardly an hour in the day when the and escape of steam and smoke do not noise and confusion, the clanging of bells interfere with the business of the city in the offices, or the meetings of the Council and the Police Court, so that no one can be heard until each train has passed and is out of hearing.

Compare the Treasurer's office with that of the Sheriff in the Court house! And yet there are hundreds of ladies, especially when taxpaying days draw to a close, who are forced to stand for hours awaiting their turn in so filthy a place, after climbing a pair of everlasting stairs, that it is a shame to require a lady to come to such a place.

The building was erected in the first

place about twenty years ago in order to get rid of an old-fashioned, century old, one-story shingle-roofed, open-on-all-sides, market-house, which was a regular tinder-box and a menace in the heart of the city, especially under the lack, in those days, of adequate fire protection. The market part of it was retained to pacify the farmers, gardeners and marketers and a few butchers, who used the stalls then in place of the hucksters who now have possession to the exclusion of its former tenants.

There were moss-backs, however, even then, who protested about the extravagance of the City Council, though the cost was a very insignificant one. The first place a stranger visiting our city usually asks to see, especially if he is from abroad or from New York, or Cincinnati, or other cities, where they pride themselves upon their public buildings, and where those buildings are a sure index of the thrift and progressiveness of a town—is the city building.

Fancy taking a stranger to our city building! There is no city in the country that feels the want of an auditorium so much as Lexington. We would have an equal show, at least, with Louisville, our only competitor, in securing the various conventions, if indeed we would not secure most of them; for Lexington is much more desirably located and the people really prefer to come to Lexington—if we had a place in which to hold our Chautauqua.

The auditorium in the Chautauqua grounds may do on occasions in summer. But it cannot be heated, nor is it at all times suitable or available. An auditorium should be in the city to derive all the benefits and conveniences from it that are expected. Take the present campaign. Suppose Governor Bradley or Governor Beckham, Mr. Hanna or Mr. Bryan, or some other equally distinguished orator should wish to address the people of Lexington some night during November? You couldn't go to the Chautauqua, if it should happen to be cold, as it often is in November. Where else then, except the Opera House could they be taken to? And that means an expense each time of about a hundred dollars, from the pockets of the people into those of Mr. Scott, provided the Opera House is not engaged. In the latter event it must be taken in day time, which may not be desirable. People can't always go in day time, to hear speeches.

An auditorium would more than pay for itself in a little while, from the benefits Lexington, through its hotels, merchants and other businesses would derive from it. Other cities spend thousands of dollars to secure conventions. Take Philadelphia or Kansas City. In the latter place the hall burned down shortly before the convention. It was rebuilt at an expense over and above the original cost, besides the great bonus paid the committee, of over \$100,000, we believe, but it was built (without waiting until the city might get out of debt first) and we don't think Kansas City lost anything by it.

Let the city sell the present building to the railroads, who, we understand, are ready to purchase it for a grand central depot. Or it would pay the city to give it to the railroads for that purpose, so that passengers from all the contiguous towns and country can land right in the heart of the city, make their purchases, and leave without inconvenience or delay. A city building, therefore, in conjunction with an auditorium is absolutely a necessity, if Lexington wishes to keep pace with a progressive age, and retain, or rather take the rank of the city in Kentucky to which she is entitled by reason of her size, her location, her reputation and pretensions.

## FOR THE HUNTER

Outlook for a Season of Luck for Nimrods.

### THE REPORTS OF GAME.

During these days, when Jack Frost is abroad with his paint pots and the maple is blushing a rosy red over the bareness of the sycamore's limbs, the Kentucky hunter gets down his Parker and begins to "talk shop." This year the prospect for sportsmen in this State is an alluring one. Shooting of nearly every sort promises to be better than at any time since the new game law went into effect. Parties who should know say the birds are especially plentiful, rabbits are reported to be as numerous as errors in a proof-sheet, and there will, of course, be the usual amount of fun with the web-footed hoarse-voiced water fowl.

And besides all this, the squirrels are emigrating.

The Rev. G. W. Young, Field Secretary for the Kentucky Temperance Societies, who has been working in Eastern Kentucky, says that all along the Southern side of the Cumberland range the gray squirrels are traveling toward the Tennessee line in countless numbers. In Pike county the bunnies were particularly numerous two weeks ago. Thousands of plump, saucy fellows have been killed, according to Mr. Young, but the devastation cut no figure in the hosts of migrating bushy-tails. They continue to come from the direction of the Ohio river, crossing rivers and open fields, and venturing boldly into the outskirts of the mountain towns. The animals seemed animated by a common impulse. They were going South. In the edge blue-grass country squirrels, both fox and gray varieties, have been especially common this year. Many have been seen and shot in open pastures, where none save stragglers had been observed for years. It may be that these were strays from the great hosts that are moving southward through the mountains.

It has been about sixteen years since there was an invasion of squirrels into Kentucky from the North. Then they came as they are coming now—along the mountain sides in millions. No one has been able to explain satisfactorily why the squirrels make these periodical autumnal excursions into the Southern territory. Some argue that their arrival in numbers may be taken as an indication of a hard winter.

But in the counties of Pike and Martin and Harlan and Perry the hunter are not concerning themselves with the causes that sent such a horde of fat and juicy broilers into their woods and thickets. They are out early and late picking off animated suppers and breakfasts. They would rather have one fat squirrel than ten scientific explanations.

Although the usual high water of last June destroyed many nests and lots of fledglings in the lower sections of West Kentucky, the quail crop of 1900 promises to be larger even than last year's harvest of "bob whites." The hens were compelled to raise their second brood later than usual, because of the flood. As a consequence many half-grown quail are seen in the coveys, but there is no apparent falling-off in the size and number of the flocks. Bird hunters are getting excellent reports from the counties on the southern slope of Muldraugh's hill down the Ohio river, and in the thickets and fields of Graves, Lyon, Marshall and Ballard counties. Up the State, where the cover is not so abundant and the woodlands are scarcer, there are more "bob whites" than usual. The supposition is that they are driven into this section by the freshets below. In a walk in Jefferson county, a few miles from Louisville, a gentleman flushed eight distinct coveys last Saturday.

Pot hunters are doing some damage, but there will be plenty of sport with the birds when the open season begins on November 15.

Woodsmen in the "knob" country "and in the foothills" bordering Central Kentucky on the east and south, say the ruffed grouse, commonly known as "pheasants," are quite numerous this fall. This has also been a good year for wild turkeys. An old hunter of Jackson county tells the writer that there are more wild turkeys in the mountains this year than at any time in the last fifteen years. He added that he had recently bowled over a handsome young gobbler with a Colt's forty-five while riding along a road to the town of McKee.

The dove shooting is practically ended, but the youthful sportsman who does not aspire to ducks or quail will find no end of rabbits and field larks in any old field.

### DAIRMEN ORGANIZE

(The Democrat's Special Service.) COVINGTON, Ky., Oct. 28.—The Dairymen's Mutual Protective Association was organized last night at Workmen's Hall with about 45 members. The object of the association is to place a standard price on all milk, and to adopt stringent rules in reference to customers who fail to promptly liquidate their monthly bills. All dead beats will be black-listed and will be refused service from other dairymen until their account is square.

### THE BASIS OF GOVERNMENT

In an article in the October 6th number of the Outlook, entitled "The Basis of Government," after defining its conclusion of what would be the worst thing that could happen to the Philippines, it says "the next worst thing we could do would be to govern the Philippines, as the Roman Emperor and the Roman Senate governed a Roman province." You say "this is Imperialism"—the government of a great body of the people by one man, or a few men, or of other classes by one class, or of one community by another independent and separate community.

"The government of a great body of people by one man," all will admit is imperialistic, and according to our Democratic ideas is obnoxious. "The government of a great body of people by a few men" is equally harmful to republican institutions, for the few will legislate for the benefit of their fellows, regardless of the welfare and interest of the many. Class legislation and rule will conduce to the same result. The trend of all such government is toward imperialism, and it is the resultant effect which the Democratic party declares will inevitably follow the establishment of the present policy of the administration. For despotism abroad will assuredly produce despotism at home.

It further says that the government of one community by another independent and separate community, is imperialism, and "this in all its (above) forms, The Outlook has condemned and resisted."

It grants, then, that the government of one community by another independent and separate community, meets its hearty disapproval; it condemns it and pronounces it imperialism.

Is it not a fact beyond refutation that Mr. McKinley, if re-elected, will bring to pass identically the condition that The Outlook describes above? Does not every act that has characterized his recent course, demonstrated his purpose that this country shall govern another country without ever having obtained that other country's consent? Does not his treatment of the people of Puerto Rico confirm the judgment of his opponents that he intends to govern a people who became a willing part of us by the very act of cession from Spain, as subjects and not citizens, held outside of the Constitution and entitled to none of its protection and its privileges?

It was undoubtedly the original intention of the President to do none of these things, but it is equally evident that the pressure brought to bear upon him by the protected interest of the country was so irresistible that he yielded his better judgment and the impulses of his better nature to its insatiable demands.

The President gave voice to his original policy in regard to these islands when he said, "forever an annexation would be criminal aggression." He further emphasized that position when he declared that "government must rest upon the free consent of the governed, and of all the governed. We have no right in law and morals to usurp that which belongs to another, whether it be property or power."

In this position he was sustained by the most eminent men of his party. Senator Depew said: "If we keep the Philippine Islands we will reverse the traditions of this government from its foundation." Senator Hoar said that if we keep the Philippine Islands and govern its people as subjects, he would date the downfall of the Republic to the McKinley administration. Mr. Carnegie says that "the Philippines have been entrusted to us solely by the unexpected demand for them made by the President himself after he had suddenly changed his mind." After the President had "changed his mind" in regard to the disposition of the Philippines, what did he do? He had a proclamation issued to the Filipinos in which he notified his former allies that they must henceforth consider themselves under the direct and absolute sovereignty of the United States—that this community intended to govern their community.

What did the President say in his notification address? "The Philippines are ours, and American authority must be supreme throughout the Archipelago." There must be no subtle policy. In other words that the dominion of this community must be supreme in that community.

Is it possible to put any other construction on the course of the administration? He allays the fears of the protected interests in this country by a shameful surrender to it in the Porto Rico affair and brings into alignment its powerful support and endorsement of his unholy policy.

If Mr. McKinley is elected, beyond a shadow of a doubt this community will govern the Philippines community, which the Outlook declares is imperialism and which the Democratic party declares is imperialism, and which it is resisting with every appeal to patriotism, and with every hope of its ultimate overthrow, and with every hope of the final triumph of justice and honor in its greatest battle against aggrandizement, greed and corruption.

### SAYS IT IS UNTRUE

Postmaster F. Clay Elkin, who is aggrieved at the Democrat for publishing reports about his alleged speakings, was asked by the Democrat if he had spoken at Cadentown last Monday night.

In a short and polite manner he wired over the phone from Republican headquarters:

"No, sir."

"Did you make a speech in the county last week?" was asked.

"No, sir."

The above is Postmaster Elkin's denial of the story printed above. Postmaster Elkin is something of a "rough rider" in giving the lie, and in the Sunday Leader accused The Democrat of a falsehood. For the edification of Postmaster Elkin The Democrat desires to say that the story published about his (Elkin's) alleged participation in the Maddoxtown meeting was furnished by a man who says it was true. Postmaster Elkin says the report is a lie. The public may draw its own conclusions.

## THE FLAG TO FALL

The Latonia Fall Race Meeting Will Begin This Afternoon.

### POPULAR TRACK ALWAYS.

The annual fall meeting of the Latonia Jockey Club will be inaugurated today. The Sunday Enquirer says: "Not in years has the outlook for a successful late season of racing at the famous old Milldale course been as bright as at the present time. The horses are now quartered at the local tracks are the best all-round lot that have been gathered here in the fall in recent seasons, thus insuring sport of a high order. More than that, the assurances that have been had are to the effect that more bookmakers will be on hand to lay against the horses than at any time in several years. That there has been something of a revival of interest in the sport of kings at Cincinnati meetings that have been held here thus far this season attest. The meeting which closed at Newport Saturday was in every respect the best fall meeting that the Campbell County track has ever known since the first year it was in operation. Good clean racing, and the best booking betting ring that has been on at either of the local tracks for years, with prices that were as liberal as have been offered at any track in the West this year, conspired to this end. The same conditions that obtained at Newport as regards the quality and cleanliness of the racing and the conduct of the betting ring will continue at Latonia, and it may reasonably be expected that the same improvement in the game will be in evidence.

"Never since the Milldale course was first thrown open to the public, away back in the eighties, has a better card of races been had for the opening day of a fall meeting than that which has been provided for visitors to the beautiful over-the-river track Monday. Very few better cards have been offered anywhere in the West this year. The only race on the programme that is at all 'doggy' is the third, a mile selling dash. Class is well represented in each of the other events. As fine a bunch of sprinters as can be mustered in the West are named to go in the inaugural dash, among them being such speedy ones as The Rush, Mr. Brown, Louis Lebour, Olcott, Princess Thyra and other quick-steppers. Another race that cannot but appeal to enthusiasts is the mile handicap, with Chappaqu, Cambrian, Branch, Left Bower, Pirate Belle and other exceptionally shifty ones among its acceptance. The two races for the younger division also have splendid fields engaged. In its entirety the card is one of great excellence, and as fine sport as has ever been had at the famous old course is in store for those who may visit it Monday."

## HE HAS NOT REGISTERED.

Col. W. J. Bryan Will Have to Swear in His Vote.

OMAHA, NEB., Oct. 28.—If W. J. Bryan wants to cast a vote, which he doubtless does, he will have to swear in his vote and have two freeholders sign with him. Among the various reasons that are assigned by those who do not register, are "Absence from the city" and "Press of business," and one of these two reasons will doubtless be alleged by Mr. Bryan. Either of them would be true. The last day of registration will have passed before Mr. Bryan sets foot in Lincoln, according to the present plans.

## THE CHAMPION PALL-BEARER

Who Had Officiated at 150 Funerals Is Dead.

ALLENTOWN, PENN., Oct. 28.—Willie Franklin Hoffman, the South Allentown boy who died in the Allentown Hospital on Sunday, and who in the past five years officiated as pallbearer at the funeral of 150 children in South Allentown and Salisbury Township, was himself borne to the tomb yesterday. The services were held in St. Mark's Church, South Allentown, and Rev. C. E. Sandt officiated.

Hoffman was 12 years of age. He began his career as a pallbearer when 7 years old. Undertaker Heller asked the lad's father to permit the boy to become a pallbearer at the funerals of children. The elder Hoffman demurred at first, but finally consented. Three of his companions, Jonas Heller, Charles Nonnenmacher and Charles Reik, all of South Allentown, were the youth's partners at many obsequies. They went to different towns. The three survivors did not act as pallbearers at their young friend's funeral, but were among the mourners.

## VOTED DOWN

Were Resolutions Indorsing McKinley and His Actions.

CHATTANOOGA, TENN., Oct. 28.—At the session of the American Methodist Episcopal Conference of Tennessee, at which Bishop Tanner, of Columbus, Ohio, is presiding, the Committee on the State of the Union presented a resolution indorsing the present National Administration, especially the gold standard and the President's foreign policy. After a heated discussion the resolutions were voted down, the sentiment of the conference being largely against the resolution.

## DEMOCRATIC STATE PLATFORM

We, the Democrats of Kentucky, in convention assembled, do make the following declaration of principles:

First, we heartily indorse the platform, enacted by the National Democratic Convention at Kansas City on July 4, 1900; also the splendid ticket named by said convention, and pledge the Democracy of Kentucky to an earnest, cordial and active support of said ticket. The entire history of the Democratic party has demonstrated that it has always been the champion and defender of the rights of the common people; that it has ever insisted that the will of the majority shall control and that the minority must cheerfully and willingly acquiesce therein. It has always advocated and still does that all elections shall be fairly conducted and the theft honestly ascertained.

We recommend that the election law of 1898, which was enacted to prevent the repetition of Republican frauds in certain districts of this State, and which was a marked improvement upon the then existing law, but which has not proved sufficient for that purpose, be amended so as to secure this end so thoroughly that the most hypercritical can find no excuse for charging fraud or unfairness to our party in the conduct of any election.

Until such amendments can be enacted by the General Assembly, we declare that the Republican party shall have representation upon both the State and all county boards of election commissioners.

We present to the people of Kentucky the picture of an army of intimidation, unlawfully quartered in the public buildings of the State; a State Senator, while in the discharge of his duty to the State, stricken down by an assassin's bullet, fired from ambush from the Executive building, then occupied by his political adversary, who hoped to profit by his death; that adversary arming filling and surrounding the building with armed men instructed to defy the civil authorities and prevent search for the assassin; the same political adversary and Republican pretender by force dissolving the Legislature in violation of the Constitution; attempting by military power to force the Legislature in violation of the Constitution; attempting by military power to force the Legislature to meet in a veritable slaughter pen for the Democratic members; driving its members through the streets of Frankfort at the point of the bayonet, forcibly preventing the Legislature from meeting in its lawful and proper place; keeping armed, riotous and disorderly men under the very window of the room where lay the assassin's victim; driving the Court of Appeals from the Capitol; by military force defying the writ of habeas corpus; aiding with the soldiery and spurious pardons those lawfully accused of capital crimes to flee from justice; the same Republican pretender fleeing from the State after indictment and remaining a fugitive from justice, protected by an open violation of the Constitution of the United States, after having declared to the people of the State: "I am a citizen of this State, amenable to its laws. I am not a criminal, neither shall I ever be a fugitive from justice. Whenever indicted I shall appear for trial."

And we confidently declare our belief that a majority of people in Kentucky favor the preservation of law and order; of both civil and personal liberty, and the maintenance of the constitutional rights of the people—Democratic doctrine, which is the hope and inspiration of every true Democrat.

We denounce the action of Gov. Wm. Bradley in using and personally commanding the military force of the State to control the election, and intimidating the voters at the election of 1899 in violation of the Constitution and laws of the Commonwealth.

The Democratic party expresses the deepest and sincerest grief over the untimely end of its distinguished leader and friend of the great common people, Governor William Goebel. His name and fame will remain a sacred heritage of the Democrats of Kentucky.

We earnestly invite the support, by voice and vote, of every sincere lover of civil and personal liberty, to join with us in this campaign against the forces gathered under the banner of government by assassination. The true manhood of Kentucky can not and will not indorse the assassins' means to obtain possession of office, and we appeal to every Democrat and every good citizen of Kentucky to unite with the Democratic party and thus express his detestation of the foul crime.

We declare to the world that the mob and the assassin shall not be the arbiters of the rights of the citizens of Kentucky, nor shall the penalty of an appeal to the law and the regular constituted authorities be death at the hands of the assassin. Law and order must and shall prevail in Kentucky.

We indorse the administration of Gov. J. C. W. Beckham, and point with pride to his submission and steadfast fealty to the law during the most troublesome, exciting and perilous days of the Commonwealth.

## A PLAINTIVE APPEAL.

Mr. John Cox, of Newtown, Scott County, who formerly affiliated with the Republican party, but who saw his error last year and cast his fortunes with the party of the people, is in receipt of the following plaintive appeal from Indianapolis, Ind., bearing date of October 22. The letter is typewritten and bears the well-known signature of W. S. Taylor, indicted for being accessory before the fact of the assassination of Mr. Goebel, and now a cowardly fugitive from justice, under the protection of the perjured governor of a neighboring state. It is addressed to "My Dear Friend and says:

"So intense is my interest in the cause of civil liberty in Kentucky, that I can not refrain from appealing to you to contribute all you can, by words and acts to the election of its standard bearer, Hon. John W. Yerkes. His opponent is a usurper of the office to which the people elected me, and now draws the salary justly belonging to my broken hearted wife and dear children. Surely the people of Kentucky will not condone and endorse this outrage on free government by electing governor, a party to and beneficiary of that great wrong. I have an abiding faith that an overwhelming majority of the people of Kentucky are for Mr. Yerkes, but I yearn and pray that the majority may be made so large that the Democratic party will not dare again to throttle the will of Kentucky freemen. Hence, my dear friend, I beg you to see to it that every lover of liberty in your neighborhood goes to the polls and votes, and that his vote be counted as cast. All eyes are turned upon Kentucky. God grant that she may be redeemed.

"Yours very truly,  
"W. S. TAYLOR."  
Unfortunately for the writer of this touching appeal, Mr. Cox does not approve of the peculiar brand of civil liberty in which the fugitive from justice has such "intense interest." The appeal for help fell on unsympathetic ears, and he gave it away to the Democrat, which gives it the prominence that it does in order that the voters may know the anxiety and yearning that fills the breast of the man who plotted to remove a political adversary. An exile from home the splendor of Indianapolis dazzles in vain and he yearns for the "liberty" to return to his Old Kentucky home, which the election of his proxy would guarantee him. That's the "liberty" he prays for and which makes his interest so intense in the result. To him and his band of conspirators and assassins Republican success will mean perhaps more than to any other set of men. It will save their necks and mean personal liberty to

them and a full endorsement, both of their crimes before and after the consummation of their fiendish plot. It will be the same as giving them a badge of honor and investing them with the peacock's feather. It will be an effect to make skulking cowards and craven assassins the first men of the State.

Can any Democrat or other honest man with the interest of Kentucky at heart endorse and condone all the criminal acts of which the Republican party stands committed and which it will commit if it is permitted again to disgrace the State? Surely not, but on contrary they will say by a majority so large that can not be gainsaid, that assassins shall be punished and their sympathizers condemned to everlasting contempt.

## HENRY B. YOUTSEY, ACTOR.

In the light of subsequent developments, it is diverting to recall the tears that were shed, the lamentations that were uttered by the tender-hearted editor of the Morning Herald over his friend, Henry B. Youtsey.

Several days ago one of the most reputable and reliable citizens of the Blue Grass region, in discussing the Youtsey trial, said that he had known Youtsey for a long time; that on the day upon which Youtsey had his attack of ineptness, he went to Georgetown for the purpose of attending the trial; that he saw Youtsey, and had a talk of some ten or fifteen minutes with him, and that Youtsey talked as rational as any one, and was apparently in as good health and spirits as any one present. A few hours later Youtsey was raving like a mad-man, and then became unconscious except when necessary to eat and drink. To what was such a change to be ascribed?

More than six months ago Youtsey had a conversation with Mr. Goebel in the Frankfort jail and made certain statements to him. This was Mr. Arthur Goebel, but Mr. Nelson, Youtsey's attorney, stated at the trial that Youtsey thought it was Mr. Justus Goebel to whom he had talked. The Messrs. Goebel look alike. Mr. Youtsey had had but one conversation with either; had not known either one before this time; had probably never seen either of them again till his case was called in court at the trial at Georgetown. What was the result?

Mr. Arthur Goebel was there, but Mr. Justus Goebel was in Arizona, thousands of miles away, and of course could not testify. Youtsey knew this, and that morning was in high spirits. When Mr. Arthur Goebel took the stand and said that it was he to whom Youtsey had talked, it came like a flash of lightning from a clear sky. Imagine his consternation! No wonder he was wild. A few minutes before he thought himself reasonably safe. Now the gallows stared him in the face. As a result of his wild actions court was adjourned till next morning. Something must be done to save himself.

An incident of the Boer war is in point. An English lady, in the fervor of her patriotism, resolved to become a nurse, and going to a hospital offered her services. Some patients were assigned her, upon whom she bestowed the closest and tenderest attentions. On the third morning as she approached the cot of one of them, she found him with eyes and lips tightly closed, and on his pillow was pinned a paper, on which was written: "Too ill to be nursed today. Respectfully, J. B."

When Judge Cantrill convened court next morning and Youtsey was found with lips closed to the questions of his counsel, there should have been a paper upon which was written, "Too ill to be tried today. Respectfully, H. B. Y."

With just a week before the election we take it that most voters have made up their minds, and that further argument will have little effect. The principal thing to be done now is to get out the Democratic vote, the Republican vote will get itself out. It always does. Election day is the greatest of the year to the negro and his white boss, and they rise as if from the earth to swarm around the polls. The average Democrat is not so self assertive. Most anything will keep him away and sometimes it takes much persuasion to make him perform a patriotic duty.

The issue this time between the parties is so intensely important to every Democrat and other honest citizen that it ought not to require much effort to get every one of them to the polls.

In National affairs the very foundation of the Government is threatened by the adoption of an imperialistic policy by an administration dominated by trusts and corporations and animated by greed for money and thirst for power. The Constitution is being set at naught and the principles and traditions that have made this the greatest country that the sun ever shone upon, ruthlessly disregarded.

In State affairs the issue is one of law and order against the rule of the mob and the methods of the assassins and other law breakers. It is whether the murderers of the lamented Goebel shall be punished or go unwhipped of justice, or whether the law shall be supreme or lawlessness have full sway; whether the wealth and intelligence of the State shall rule or be ruled by ig-

norant or vicious whites, irresponsible and with no State pride, and their faithful and more ignorant, but less vicious, negro allies.

These issues appeal to every lover of his State and country and ought to put every voter on his mettle. You may preach of your sentiments forever, but in order to make them count you must practice them. You must fight if you would conquer; you must vote if you would win. Let every Democrat gird his armor on and not only vote himself, but induce every other Democrat to do so. Appoint yourself a committee of one to first do your duty yourself and then to see that your friends do likewise. If every Democrat in the State will do this, Bryan, Beckham and our Congressional candidates will go in by a majority that will surprise the country. Let us all up and at 'em and victory, glorious victory, is assured.

Pulaski Democrats held one of the most enthusiastic meetings of the ocean-to-ocean rallies Saturday. Hon. J. C. Beckham, of Shelby, was the principal speaker, and made a strong address. A feature of the day was a horse-back parade, participated in by two thousand enthusiastic voters, headed by Editor T. J. Campbell, of the Somerset Journal, who was bugler in Woolford's Cavalry, and who called the long line to order with blasts from his favorite instrument. Somerset is the home of the Hon. Ben V. Smith, Democratic nominee for Congress, and his followers say they will cut the Republican majority, which sometimes runs almost to 2,000 down to 600. Mr. Smith is making an active canvass, and while he has no hope of defeating Judge Boring he is making the race exceedingly interesting for him.

Our Republican contemporary is moved to remark: "Mr. Beckham and his friends know that there is no possible chance of his being elected by the people." The wish is simply father to the thought in this statement. There are no grounds for making it, and it is made simply for effect and for the same purpose of the fellow who whistled as he went through a grave yard—to keep the courage up. The man who can even profess to think that Yerkes will be elected has a poor opinion of Kentuckians, a large majority of whom are too brave and chivalric to have anything in common with assassins and their endorsers. The Herald does not believe its own words, and of course nobody else will.

A hired orator from Chicago, one Enos P. Morgan, tickled an assassination audience at Louisville by asking on taking the stand, "Who killed Goebel?" and answering it by asking, "Who killed Billy Patterson?" Then he proceeded to make himself more solid with the civil libertarians by asserting, "I don't care three straws who killed Goebel." This produced great applause, indicating that the crowd felt that it didn't care three straws if he was killed. That is the way a large number of Republicans feel, whether they say so or not. The party having endorsed assassination, the lower order of the rank and file can not be expected to do otherwise than exult over the work of assassins.

News comes from Knoxville that the Republicans there were much disappointed in Col. D. G. Colson's speech. They thought because he had shown proficiency with the pistol and was a good hand with a Winchester, that his speech would be of the blood and thunder kind, and that Democrats would be ripped up the back and down the front, but instead he discussed the issues in a gentlemanly manner so at variance with the average Republican spell-binder that his hearers were disgusted. The only way to interest the average Republican audience is to treat assassination as a joke and hold assassins up for emulation and admiration.

A share of Standard Oil stock sold the other day for \$605. As its par value is but \$100, the purchaser evidently believes that the price of coal oil will continue to be forced up by the grinding trust, which has already doubled it. As Senator Scott, of West Virginia, said at a New York banquet: "I believe in trusts; they are good things." Good things, indeed for those on the inside. Too good to last if Bryan is elected.

Under the head of "Facts About Motherhood," the Leader publishes an essay that ought to exclude it from the mails and subject the writer to the pains and punishment meted out to old Charley Moore. The attention of the postmaster, if he can spare the time from the arduous duties of the campaign, is called to the matter.

News comes that Bailey's Mill precinct in Franklin county, which in 1896 gave Bryan 116 votes and McKinley 1, will make it unanimous this year. Disgusted with himself the lone McKinleyite will winter his vote and let his precinct be the banner Democratic voting place of the United States.

An effort is being made to have Grover Cleveland accept the Presidency of the Washington and Lee University, made vacant by the death of Hon. W. L. Wilson. If he accepts he will certainly be able to fill the chair, unless it be an unusually large one.

## IS DEAD.

"Big Jack" Thomas' Wounds Prove Fatal.

"Big Jack" Thomas died at St. Joseph's hospital about 4 o'clock yesterday morning and a charge of murder now rests against Annie Million who has been in jail since she put two bullets into him Friday.

It seems that "Big Jack" went to the home of Annie's mother on Wolf's Row Friday morning and started a "rough house." Later in the day he met Annie and they had hot words. They met again half an hour later and when "Big Jack" started at her with a razor she "backed up" her smoke wagon and unloaded a couple of pieces of lead into him.

One of the balls hit him in the left thigh and the other made twenty-four perforations in the bowels.

Annie will be presented in Police Court this morning, and as a fellow-prisoner she will have John Thomas, father of her victim, who was found drunk and noisy on North Upper street yesterday morning by Detective Jenkins.

## TOBACCO MARKET.

LOUISVILLE, Oct. 28.—Total offerings last week were 1,140 hogsheds. Of this number 116 hogsheds were new Burley, 632 hogsheds old Burley, 230 hogsheds new dark and 162 hogsheds old dark. No material change was noticeable in the market; at the same time a general demand seemed to exist for most anything offered. Quality of the old Burley offered was only fair; still some good tobacco appeared and sold at their full value.

A strong and substantial feeling existed for the better grades of old, color leaf and good lugs being eagerly sought after. Low grades were easier, red fillers were firm and tips stronger. There were 116 hogsheds new Burley sold at an average of \$5.43, against 77 hogsheds at an average of \$7.44 in 1899. Quality of the new was generally poor and condition fair. The market showed no change from last week. The offerings of old dark at auction amounted to only 46 hogsheds composed largely of common lugs and nondescript leaf. The market was stronger for sound leaf and lugs, but condition was so poor that a number of hogsheds were neglected. The offerings of new dark amounted to 230 hogsheds at an average of \$5.59 in 1899. Quality of the new was only fair, condition unsatisfactory. The market for rehanding leaf was irregular, at times higher. For lugs the demand is limited, and prices unchanged from last week. With a fair season we look for the new crop to move freely from now on.

## "CIVIL LIBERTY."

Exponent of the Latest Fad Gets in Trouble.

Jim Parker, a millwright in the employ of Col. Roger D. Williams, was arrested on the charge of being drunk by Officers Donahue and Delaney yesterday morning. They found him at the stock yards on Fourth street, where he was holding forth in a tirade against Democracy, and declaring his intention of lessening the returns by killing a few of them. He was arrested at the instigation of some of the employees of the stock yards, who were afraid he would carry his threats into effect.

## A BRYAN SENTIMENT.

To say that the people gathered here who support one cause are the enemies of honest wealth is a slander which could not be uttered without the one who uttered it knowing it to be false. We are not opposed to that wealth which comes as the reward of honest toil and is enjoyed by those who give to society something in return for that which society throws upon them. The Democratic party of today is not only not the enemy of honest wealth but the Democratic party of today is the best friend of that wealth that represents ability of muscle or of mind employed in its accumulation.—(Bryan at Madison Square Garden.)

## HELD HIM FOR A WHILE.

Bud Harris, prominent in Yellman social circles and equally prominent in police circles as a very able bandier of portable property, acquired a voluminous jag yesterday and went around to the home of Sarah Jewett, his "lady friend." Sarah undertook to advise him against intemperance, whereupon he landed heavily on Sarah who "hot-footed" to Squire Bell's to get a "writ." On this Bud was judged by Officers Delaney and Savage.

### INVITATIONS

Out For the Wedding of R. C. Stoll and Miss Thrall.

The Cincinnati Enquirer of Sunday had the following of interest to Lexingtonians:

Dr. and Mrs. William Thrall sent out invitations for the wedding of their pretty daughter, Miss Josie, with Mr. Richard Stoll, of Lexington, Ky. The ceremony will be a church affair, with only the bridal party at the house for the supper and its attendant solemnities of cutting the cake, catching the bride's bouquet and showering the

happy pair with rice. Miss Mabel Thrall will be the maid of honor, and the other pretty damsels who will lend Miss Josie countenance at the altar will be Misses Kate Harries, Mattie Burton, Anne Henry Stoll of Lexington, Sellers of Chicago and Bessie Low of Dayton. Mr. Stoll's men are mostly strangers, if Clifford Cook, now living at Pittsburg, and Dudley Short, now at Lexington, may be excepted. There will be two brothers to Mr. Stoll among his men and two visiting celebrities.

Chayt Aubrey acquired a jag very early yesterday morning and terrorized the residents of Speagle Heights until he was brought down in the wagon by Officers Savage and Delaney.

## HONEST

Is Bryan, and Ohio Prefers Him to Mr. McKinley.

WHAT MONNETT THINKS.

COLUMBUS, OHIO, Oct. 28.—Former Attorney-General Monnett believes that Bryan will win. Chairman Long gave out for publication a letter from him Saturday, in which he speaks of his recent meeting in Dayton. In part he says:

"Organized labor in Dayton is intensely aroused in this campaign and gave me a most courteous hearing on economics."

"The seven pounds of sugar exacted by the trusts out of every twenty-one, as one man told me last night after the meeting, weighed more in the minds of the masses than all the flimsy tawdry of the campaign in the way of Rough Rider hats and brass bands paid for by Sugar Trusts, Steel Trusts, Tobacco Trusts and Oil Trust money."

"I am aware that a campaigner cannot take an impartial view of the political conditions on the eve of election, but in five different State campaigns that I have had the pleasure of taking part in I never have seen a universal trend so strongly in favor of any candidate as is now setting in for Bryan. The people believe him to be an honest man and that he will enforce the laws of this country through his various district attorneys and will not compromise with the combinations, trusts and monopolies for the sake of getting a campaign assessment."

"The rapid concentration of wealth in the last four years in the hands of a few magnates so that less than 1 per cent own 55 per cent of all the wealth, 7 per cent of the people 80 per cent, while 52 per cent of the people own less than 1.2 per cent of the property is arousing a frenzy among the masses against Hannaism, the Rockfellers and the Morgans and the indifference of Griggs and McKinley in their failure to enforce the Sherman anti-trust act and prevent this concentration of wealth. This will have a telling effect in this election, and the Democrats from the lake to the river, together with the independent voters, have aroused the State so as to make Ohio a doubtful State. Yours very truly, 'F. S. MONNETT.'"

## LAW PARTNERS.

Republican and Democrat Making the Race For Congress.

TERRE HAUTE, IND., Oct. 28.—Frank A. Horner, Democrat, and E. S. Holiday, Republican, are the opposing candidates for Congress in this (the Fifth) district. They are both lawyers of Brazil, Clay county, and represent what constitutes an anomaly in Fifth District politics, if not in the entire State, for they are now, and have been for several years, partners in business and the leading firm in the county. So far as the race for Congress is concerned there is no danger that it will engender any bitterness between the candidates, for, while each is striving with might and main to attain the goal, their friendship is based upon personal regard of long standing and is too well grounded to let a little thing like Congressional aspirations disturb it.

Mr. Holiday is a compromise candidate and owes his nomination to a desire on the part of the leaders of the party to heal the wounds that factions in this county have made, and for a time after the convention it seemed as if the desired result would be brought about.

## COL. WOOLDRIDGE

It Is Now Believed That There Is No Hope of His Recovery.

Versailles, Ky., Oct. 28, Col. S. L. Wooldridge, the banker, who has been ill of Bright's disease for some weeks became much worse last night, and it is now believed that there is no chance for his recovery, although his life may be prolonged for some days yet. His son, Mr. Powhatan Wooldridge, of Louisville is now at his bedside.

Col. Wooldridge is one of the oldest citizens of Versailles, being past seventy-five years of age. He has long been president of the Bank of Woodford, of this city, and for years was the owner and had the controlling interest in the famous Wooldridge-Jellico coal mines, at Jellico, Tenn.

## GOT THE ICE CREAM.

The delivery wagon of McGurk & Spears was robbed yesterday on South Limestone street near High, of a quantity of ice cream, which had been sent out just before dinner.

The wagon had stopped and the driver was away, when a number of small boys who live in the vicinity, appeared suddenly and disappeared with the goods. Last night one of the boys

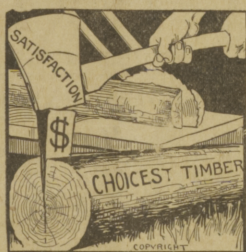

returned the baskets to the store and thanked the firm for the ice cream. All the boys who assisted in the robbery are known, but nothing will be done except to notify their parents to "settle up."

## TO FLOAT INTO CONGRESS.

The Midway Clipper says: That the Hon. Richard Stoll, the Republican nominee, expects to float into Congress on a barrel of whisky is evidenced by the fact that the district is being flooded with the stuff to be used freely. It is whispered that so far five barrels have reached Midway for immediate and active service in the campaign. And yet there are Christian men in this town who think the devil is sure to get them if they don't vote for Mr. Stoll. They will endorse all that's mean and low down in the Republican party rather than vote with the Democrats because they passed the Goebel law.

## THREE GOOD SPEECHES.

The Democrats of Precinct 1 held an enthusiastic rally on Lottie street Friday night. There was a good-sized crowd present, and three speeches were made. Wallace Muir, J. Bright and P. Ryan were heard, and each made a strong presentation of Democracy's claims. Mr. Bright is a travelling salesman, and his speech was especially interesting and effective.

McKinley's Admirer, the  
Bank Looter, Prob-  
ably in Canada.

TO SEIZE HIS PROPERTY.

MT. VERNON, N. Y., Oct. 28.—Detectives who are now searching for Cornelius L. Alvord, Jr., the defaulting note teller of the First National Bank of New York, are now of the opinion that he has fled to Montreal, Canada, while his friends believe that he is with friends in New York. The \$5,000 reward has brought out an army of amateur and professional sleuths, who are searching for clues in every township between this city and Boston. Central Office men, it was stated,

had traced the bank looter as far as Boston, but after that they lost all trace of him. From there it is the opinion of the police that he took a train for Canada.

It is probable that a Deputy Sheriff will seize the property Monday. The following property will probably be attached: Cottage and lot, valuation \$20,000; vacant lot, \$3,500; six horses, \$3,500; six carriages and two sleighs, \$4,000; six sets of harness, \$2,000; furniture, \$5,000; silverware, \$2,500. Justice Lawrence, of the Supreme Court, granted an attachment for \$700,000 against the property of Cornelius L. Alvord, Jr., the missing note teller, in favor of the First National Bank. The attachment was granted on the ground that Alvord wrongfully converted to his own use funds belonging to the bank.

It is said that the officers of the bank have come to the conclusion that in all probability comparatively little of Alvord's stealings remain in his possession. This conclusion was reached, it is reported, after a further examination had been made of the bank's accounts. While this did not reveal any additions to the thefts, it showed that for months past Alvord had not taken any money.

In "Hotel Gossip" in the Sunday Enquirer appeared the following of interest to Lexingtonians:

Col. R. W. Nelson, Mayor of Newport, Ky., who defended Henry Youtsey in the famous trial at Georgetown, Ky., was at the Emery yesterday: "I have branded and published as false the statement going the rounds that I said I would vote for Yerkes," remarked the Colonel, "and I say to you that I have never scratched a State or National ticket in my life, and never expect to do such a thing. I have scratched a few times in local races under peculiar conditions, and reserve that right at all times. I shall vote for Bryan and Beckham. I feel sure that both will carry Kentucky. I believe that our county (Campbell), that gave McKinley a majority of 1,600 in 1896, will go Democratic at the November election. That is my honest opinion. Yes, I am confident that Beckham will be elected."

"Right here I want to say I believe in trusts they're a good thing, and then recognizing that he had said a dangerous thing for a Republican to say in a campaign he turned and said: 'If that newspaper man puts that down I will make trouble for him.'"

## SIZES UP "TEDDY."

Enquirer Correspondent's Pen Picture of the Man.

### IS MASHED ON HIMSELF

J. M. Allison, one of the brightest of the Cincinnati Enquirer's staff correspondents, who traveled with Teddy Roosevelt in his itinerary through the West, had this to say in the course of an article published in the Sunday Enquirer:

The character of Roosevelt could not be a product of ordinary conditions. To use a homely Americanism, he is "spoiled." He made his own freakish career in early youth because there was no one to say him nay. With a college education and the price of unlimited frontier booze in his pockets, he conceived himself a hero among the cowboys. That was the beginning of the development of the character of the man. Roosevelt is essentially an egotist—not in the most offensive meaning of the word, but in the sense of viewing the happenings of the whole universe as they affect—or, as he occasionally seems to think, are affected by—himself. Balance, mental poise, diplomacy, self-restraint, modesty—all are lacking in Teddy. He conceives himself to be a type—an improvement on all mankind; and, like the Western bandit who made "his own prices wherever he went," Teddy originates his own ethics. His one saving quality is a vast seeming frankness. His free and easy manner with strangers or with old acquaintances in the lower walks of life displays this quality largely. Teddy is not "stuck up," but in the very informality of his manner egotism is strongly displayed. When he is talking to an ex-soldier or an old cowboy he seems to mentally exclaim: "Here is a common, ordinary man. Hear Roosevelt talk to him, and observe how differently Roosevelt meets him than would any other great man!"

Vanity has a great part in Roosevelt's make-up, and he is particularly sensitive to any criticism of his record as a soldier. When a press dispatch contained a paragraph stating that Roosevelt and his men had stumbled into a Spanish trap before El Caney and had been saved from annihilation by the negro regular cavalry, the writer was summoned to Roosevelt's private car.

"I believe you are a fair-minded young man," said the Rough Rider, "and I believe you are a gentleman. If I did not believe this I would not allow you to remain on this train. Now I want to call your attention to a statement in your dispatch which is a lie—an infamous lie. I do not charge you with making the statement first hand. It is one of Hurst's lies which has been reiterated until I am sick of hearing it. There is absolutely no truth in the story of the Spanish trap and the rescue by the negro cavalry."

### 10 TO 7 ON BRYAN.

(The Democrat's Special Service.) CINCINNATI, OHIO, Oct. 29.—P. J. Millett, of Knoxville, Tenn., authorizes the Enquirer to announce that he will bet \$10,000 to \$7,000, or any part of it at the same odds that Bryan will carry Kentucky, and that he will take a few even money bets that Yerkes won't be elected Governor of Kentucky. He will be at the Gibson House on Monday.

Any person wanting to bet as much as \$400 that Yerkes will beat Beckham can get that amount covered by application to Captain Jerry Reagan at the Police Station.

### WAS USED TO THEM.

WILLIAMSBURG, Ky., Oct. 28.—In a blind tiger near Pine Knot Cephus King was shot in the body by Henry Young. The two men were drinking and Young drew a pistol, which he pointed at King's breast. King replied that he was not afraid of pistols and he cultivated a practice of staring down their muzzles. The next moment there was a flash, and he fell to the floor with a hole through his breast. Young says the shooting was accidental and he has not been arrested.

## WILL BE A SHOCK

To the U. S. When the Truth is Made Known.

### MAJ. RATHBONE IS 'LOADED'

New York, Oct. 28.—Ohioans, who are in very close touch with the Administration at Washington, and who have been in New York, have been telling some peculiar tales within the last week. They have been saying that there will be some grave revelations concerning affairs in Cuba immediately following the Presidential election. Of course, all this has been told only in whispers, as it is said the authorities in Washington would not have it known until after the votes are counted on election night. Then should McKinley be re-elected he will take his own way of administering justice. Should Bryan be elected it is all bound to come out anyway, they say.

However, full details are certain to not become public property until after the election. Then only so much will be given to the public as will exonerate Major E. G. Rathbone and some others of offenses they stand charged with. It is said that Major Rathbone has been guaranteed already that such a course will be adopted. It is said, too, by these men, who should know whereof they speak, that it will be found that Major Rathbone and his friends are in no way to blame for the condition of affairs about Havana and throughout Cuba that is said to be the very worst. In fact, according to the story, the revelations that are to come will affect only the men of the army alone, and that no one in civil or official life outside the army is implicated.

## COUNTY OF KENTON

Is Well Organized and Democrats Are Confident.

Covington, Ky., Oct. 25th, 1900.

Editor of Democrat: I have read with pleasure the several last issues of your paper and the Democrats of this city heartily endorse your advocacy of the importance of every Democrat falling in line and defeating the Republican ticket. We have an important duty before us, and if every man who desires to see our State saved from the rule and ruin policy let them each and every one lend an assisting hand in securing the election of the full Democratic ticket at the November election. The forces of the Democratic party were never before more thoroughly organized than at this time, but it will require continual work up until the last hour to save the honor of our State. The several Democratic Clubs of this city and Newport are using every effort to secure the election of every Democratic candidate.

This city is now endeavoring to make a more perfect arrangement than ever before in taking care of her poor and needy. They do not propose to wait until the severe winter weather is upon us, but are now arranging a system which will be a God send to those in destitute circumstances. The different churches will appoint a committee to investigate and supply those who are in need. The Central Christian Church has taken the start in this movement and has appointed a committee consisting of Mrs. A. Allen, Mrs. J. Greene, Miss L. White and Miss M. A. Steers, who will confer with other committees, which will be appointed later on by the other churches. Much good will be done by these relief committees.

This city and the surrounding section is suffering for rain.

Taylor, Republican candidate for Governor last year.

At this time a soprano solo was rendered by Miss Katherine Cochran, of the Conservatory of Music. Miss Cochran has a most beautiful voice, and her effort last night was heartily enjoyed.

### ANNUAL ADDRESS.

The Chair then introduced Bishop Burton, who made the annual address to the society. His subject was the influence of the Bible. He said in part: Who can estimate the influence of books? How many boys have been influenced to run away by reading "Robinson Crusoe" and "Sinbad the Sailor"? Seneca's "Epistles" and "Letters" inspired Keats to lift up his voice in song whose sweet notes have echoed down the halls of time and pleased listening ears to the present day. The publication of Captain Cook's voyages around the world inspired William Carey, the shoe-maker, to plan his great missionary work. It is known that the influence of two books did a great deal towards bringing on the late civil war.

In the western portion of this State, where my duty leads me, I am appalled to find the immensity of the influence of the press. Books, nowadays, have lost their influence to a large extent, and are now used chiefly as ornaments, but the influence of the press is enormous. Of all books, the Book of Books, the Holy Bible, has the most influence. This influence is not only superlative, but supernatural. Adown the centuries it has come, ever widening in its work of civilizing and turning lost men back to the fold. Its power cannot be estimated.

In ancient times, there was a belief that the Gods sent Triptolemus over the earth scattering grains of wheat that the whole earth might bring forth food for its people. In this day, the printing press is taking the place of Triptolemus and is scattering the seed of the Gospel far and wide.

You can now buy a Testament for five cents and a whole Bible for fifteen cents. Who can estimate the power these little books have in the world?

The doxology was then sung and the meeting dispersed with prayer by Rev. I. J. Spencer, of the Central Christian Church.

**"KILLED A MAN"**

And That Wasn't Exactly a Crime in Kentucky He Said.

(Cincinnati Enquirer.)

Captain Garrard, the United States recruiting officer stationed in this city, is a typical Kentuckian, born and reared in that State and loves the old Commonwealth dearly. Early during the past week it was ascertained that the Marine recruiting officers in this city had enlisted two men who had frequently been arrested and bear a tough reputation. Captain Garrard, in speaking of the matter from the standpoint of an army officer, stated that the United States regulations forbade the recruiting officers to enlist anyone who had served a term in State's prison.

"I enlisted a man not long since," said Captain Garrard, "who, I afterward ascertained, had served a term in the Frankfort (Ky.) penitentiary. He enlisted for the Philippine service and had been sent on to San Francisco when I made the discovery. I telegraphed the matter to the war department and do not know what action was taken in the matter. Although this man had served a term in prison he had done nothing disgraceful."

"What was the nature of his crime?" Captain Garrard was asked.

"Well," answered the captain, as he leaned back in his chair and blew a cloud of smoke in the air. "He hadn't, in fact, committed a crime. He had stolen nothing. He killed a man in a fight."

### A BLADE MIX-UP.

Andy Dudley who, in a mix-up with "blades" on Jockey Block last Sunday night, cut and was cut by Will Haggard, a mute, was transferred from the Good Samaritan Hospital to the police station by officers Henry and Baker last night. Haggard is in jail. Both will be presented before Judge Riley this morning.

### YERKES IN THE CITY

The Hon. John W. Yerkes of Danville, Republican nominee for Governor, arrived in the city yesterday on the 5.10 P. & C. train. He took supper at the Phoenix with Postmaster F. Clay Elkin and left on the 8.45 C. & O. train east bound.

But let us discuss National Affairs for a few moments. And the most interesting of all National questions just now is

WHAT'S THE MATTER WITH HANNA?

Behold him "on the stump," his "fair, round belly with good capon lined," watching through a glass darkly how Teddy Roosevelt lassoes the Indians of South Dakota. The sight makes Mr. Hanna's belly ache, and causes his liver to hepatize his spleen. He has Gorgon eyes on the brain and nervous strangulation of the alimentary goosicereum. His spleen is exacerbated, and he has a cespitose appendicitis. Why? None of the doctors know, but we do. None of the politicians know, but we do. The doctors claim that he has atoxis enomosa; the politicians say that he is mad because the Indians that Teddy catches cannot vote. Neither of them are right. He will never get well until he puts little Napoleon McKinley on the back porch, wound up with Sunday-school speeches like a consecrated music box, and even then he will not get entirely well until he makes a practice of chewing
